Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant explained Figure 1 does not contain only prior art but instead Figure 1 is an exemplary system of the present invention. Examiner believed Applicant's rationale if made of record would be sufficient to overcome objection to Figure 1.

Applicant suggested a proposed amendment for claim 60 to direct the claim towards a system claim by reciting hardware such as devices. Examiner agreed that such an amendment to claim 60 would be sufficient to direct the claim under a statutory category (i.e., system).

To avoid new matter issues, Applicant will cite support for any amendments made to the claims.

Examiner clarified the 35 U.S.C 112 2nd issue with claim 74 regarding the preamble reciting "to a common dialog" and the body of the claim reciting "from the common dialog". Applicant intends to remedy the indefiniteness of claim 74 in the next response made of record. .
